

CAST PHARMA is a leading medical education agency that uses the concept of VISUAL STORYTELLING to create high-quality medical training and learning tools for pharmaceutical and biotech companies worldwide.

To start as soon as possible in our office in Dresden, we are seeking an experienced

Medical Project Manager

Project managers serve as liaison between clients and internal departments to ensure project development runs smoothly and according to agreed timelines.

Your responsibilities:

- Leading complex projects in the area of learning and training
- Facilitating communication between internal and external teams
- Providing clients with expert and professional advice
- Results-driven project management and planning
- Ensuring project quality throughout all stages
- Coordinating and supervising progress and timelines

Your Qualifications:

- PhD in biology or biochemistry
- At least three years of experience in an agency, preferably in the field of training/learning
- Practical experience in project management, knowledge and application of common project management methods
- Knowledge of typical workflows in media production (3D animation, editing, interactive applications, digital data)
- Excellent communication and interpersonal skills
- Ability to work well in a team
- Goal-oriented and flexible
- English native speaker (US or UK) or excellent command of both written and spoken English

We offer exciting assignments and independent work in a growing enterprise.

To apply, please email us your resume and earliest start date. We look forward to meeting you!
